

XXXV World Congress of Audiology

19-22 April 2020, Warsaw, Poland

ePoster Presentations 20-22 April 2020

Warsaw Marriott Hotel, Warsaw

Room: **WAWEL**

<i>Presenting Author</i>	<i>#</i>	<i>Title</i>
Bradley McPherson	P-001	ABO blood group: Does it impact on auditory function?
Hannalice Gottschalck Cavalcanti	P-002	Absolute pitch in music students: is there a relation with auditory processing?
Mariko Takahashi	P-003	Acoustic neuroma presented with sudden sensorineural hearing loss
Magdalena Sereda	P-004	An evaluation of the content and quality of hyperacusis information on websites
Andrzej Kukwa	P-005	An extended middle cranial fossa approach to IAM & cerebello-pontine angle. Presentation of surgical technique and case report.
Jurek Olszewski, Marzena Mielczarek	P-006	An innovative prototype device for electromagnetic ear stimulation in the treatment of subjective tinnitus
Barbara Kaczynska	P-007	Analysis of research results of the original quality scale of music perception in cochlear implant users at the age of 4-6 y.o.
Barbara Kaczyńska	P-008	Analysis of the results of the original quality music perception scale used in cochlear implant users at the age of 7-12 years old.
Rowena Trott	P-009	Assessing the Effectiveness of Vestibular Rehabilitation in an Audiology Department in the UK.
Sang-Youp Lee	P-010	Assessing the effects of single-sided deafness on listening effort in adults
Nadia Giulian de Carvalho	P-011	AudBility: A novel method of an online program for central auditory processing screening in schoolchildren.
Danuta Raj-Koziak	P-012	Audiological and psychological profiles of children with tinnitus
Amanda Scheffer	P-013	AUDIOLOGICAL FINDINGS OF A VIRAL MENINGITIS AND HIV PATIENT: EVALUATION AND REHABILITATION
Amanda Scheffer	P-014	Auditory attention training effects in a female patient with tinnitus complaints
June Choi	P-015	Auditory Brainstem Response test results in Normal Hearing Adolescents with Tinnitus
Amanda Scheffer	P-016	Auditory Effort Assessment Methodologies: Integrative Review
Ana Frizzo	P-017	Auditory function assessment in presbycusis elderly with and without mild cognitive impairment.
Caroline Donadon	P-018	AUDITORY FUNCTION IN CHARCOT-MARIE-TOOTH DISEASE: CASE REPORT
Sheila Andreoli Balen	P-019	Auditory processing abilities in pitch and duration pattern tests for elderly: a systematic review.
Maria Francisca Colella-Santos	P-020	Auditory Processing Disorder and Learning Difficulties: school-aged children performance in behavioral and electrophysiological assessment.
Agata Szkielkowska	P-021	Auditory stimulation in children with functional voice disorders
Nomfundo Moroe	P-022	Auditory symptoms in taxi drivers exposed to traffic noise in Johannesburg, South Africa
Hyunsook Jang	P-023	Auditory, visual, and auditory-visual working memory in individuals with cochlear implants
Yasue Uchida	P-024	Awareness of hearing handicap in hearing-impaired older outpatients visiting the memory clinic

Seog-Kyun Mun	P-025	Axonal sprouting and change in inhibitory transmission in the inferior colliculus after hearing loss
Grażyna Tacikowska	P-026	Bilateral Vestibulopathy: aetiology and vestibular function
Hyung-Jong Kim	P-027	Change of Tympanogram after Chronic Otitis Media Surgery
Jong Woo Chung	P-028	Changes of temporal processing and hearing in noise after use of hearing aids in patients with sensorineural hearing loss
Justyna Kutyla	P-029	Characteristics of a group of patients hospitalized due to tinnitus in the World Hearing Center.
Sheila Andreoli Balen	P-030	Characterization of subcortical auditory neural responses in babies exposed to syphilis: preliminary results
Gayane Sargsyan	P-031	Cisplatin-induced cumulative ototoxicity based on pre-exposure hearing status
Monika Zaborek	P-032	Clinical characteristic of patients with vestibular schwannoma and its relationship to tumor size
Sabrina Figueiredo	P-033	Cochlear implantation in adults with unilateral hearing loss: A review of recent studies
Ntsako Maluleke	P-034	Communication and school readiness abilities of DHH children in South Africa: A retrospective review of EI preschools records
Luciana Macedo de Resende	P-035	Comparative study of cognitive and hearing skills in functionally independent elderly
Aleksandr Pashkov	P-036	Comparison of ECAP thresholds in CI patients with different ASSR levels
Amanda Scheffer	P-037	Comparison of responses of parents and children with unilateral hearing loss on Multidimensional Fatigue Scale (PedsQL)
Weronika Świerniak	P-038	Comparison of the frequency of positive hearing screening results in school-age children from different countries around the world
Barbara Kaczynska	P-039	Concert of active music – application of original music therapy exercises
Hanna Göthberg	P-040	Conductive hearing loss and ear-related pathologies in an unselected sample of 85-year-olds
Hannalice Gottschalck Cavalcanti	P-041	Congenital Syndrome of Zika Virus and hearing loss: case study
Katarzyna Bieńkowska	P-042	Cross-cultural adaptation of the Scale of Auditory Behaviors Questionnaire
Maria Francisca Colella-Santos	P-043	Cystic Fibrosis: Behavioral, electroacoustic and electrophysiological auditory evaluation in children and adolescents
Katarzyna Nikiel	P-044	Deafness in Mohr-Tranebjaerg syndrome with X-linked agammaglobulinemia
Hashir Aazh	P-045	Developing a mathematical model based on clinical data in order to explain the mechanism in which hyperacusis may lead to depression
Seisse Gabriela Sanches	P-046	Development of Auditory skills between 5 and 7 years old
Gabriele Libano de Souza Cardoso	P-047	Distortion Product Otoacoustic Emissions: values of amplitude
Luciana Macedo de Resende	P-048	Does recreational exposure to elevated sound pressure levels impair hearing in young healthy adults?
Moo Kyun Park	P-049	Effect of reverberation on auditory working memory
Jurek Olszewski	P-050	Effectiveness of neck kinesiotherapy and massage for the treatment of subjective tinnitus
Hyunsook Jang	P-051	Effects of Aging on Auditory Processing Abilities
Michał Skóra	P-052	Evaluation of hearing screening of Polish athletes with intellectual disability participating in Special Olympics.
Jennie Hjaldaahl	P-053	Experiences of audiological rehabilitation among individuals with

severe to profound hearing loss.

Aleksandra Kołodziejak	P-054	Facial nerve palsy as a complication after otitis media.
C. Barreira Nielsen	P-055	Factors affecting auditory performance of post linguistically adults using cochlear implants
Sabina Houmoeller	P-056	Factors predicting the success of hearing aid treatment in first-time and experienced hearing aid users
Hashir Aazh	P-057	Factors Related to Tinnitus and Hyperacusis Handicap in Older People
Katarzyna Przytuła - Kandzia	P-058	Failures after cochlear implant surgery in profound hearing loss and deafness.
Nikolai Pudov	P-059	FUNCTION OF AMPLITUDE GROWTH OF ELECTRICALLY EVOKED COMPOUND ACTION POTENTIAL IN PATIENTS WITH COCHLEAR IMPLANTS
Joanna Kobosko	P-060	Global self-esteem and deafness – the study of the deaf persons using a cochlear implant since adulthood
Agneta Anderzén Carlsson	P-061	Health related quality of life, family climate and sense of coherence in family members in families where a parent has deafblindness
Gabriela Cintra Januário	P-062	Hearing Health Policy in the Disabled Persons Health Care Network of Minas Gerais, Brazil
Weronika Świerniak	P-063	Hearing loss among 1st and 6th grade children of primary school in Warsaw, Poland – cohort study
Beata Dziendziel	P-064	Hearing Preservation Outcomes After Cochlear Implantation Depending on the Length of Electrodes in Patients With Partial Deafness
Sheila Andreoli Balen	P-065	Hearing Screening in babies exposed to congenital syphilis: occurrence of pass and fail
Weronika Świerniak	P-066	Hearing screening in school-age children from Kyrgyzstan: results of screening and follow-up
Sheila Andreoli Balen	P-067	Hearing Status of Students from a Metropolitan Area in Northeastern Brazil
Hashir Aazh	P-068	Hyperacusis and Severe Hyperacusis among children and adolescents
Katarzyna Przytuła - Kandzia	P-069	Improving speech understanding in patients after cochlear implantation after replacing the speech processor with a new one.
Roman Barylyak	P-070	Indications and possibilities of revision surgery post stapedotomy
Maria Gocel	P-071	Influence of age on the results of Dichotic Digit Test (DDT) based on analysis of hearing screening in school-age children
Beata Miaśkiewicz	P-072	Injection reaugmentation in patients with unilateral vocal fold paralysis- one year follow up
Thaise Martins Campos	P-073	International Classification of Functionality, Disability and Health in tinnitus patients
Isabella Marchesi Florez	P-074	Investigate the rate of use and satisfaction with the hearing aids.
Busra Kose	P-075	Investigation of the Relationship Between Verbal Working Memory, Short-Term Memory and Speech-in-Noise Perception in Children with Cochlear Implants
Agneta Anderzén Carlsson	P-076	Knowledge, skills and information needs on older residents' hearing loss and hearing aids. Translation and adaptation of a Norwegian instrument
Hyunsook Jang	P-077	Korean Time-compressed Speech Test
Seisse Gabriela Sanches	P-078	Medial Olivocochlear reflex in children aged 5 to 7 years
Joanna Kobosko	P-079	Mental distress and deafness – the GHQ-28 questionnaire study of the adult cochlear implant users with partial or profound deafness
Tomasz Przewoźny	P-080	Methods of cochlear implants fitting

Milaine Sanfins	P-081	MIDDLE LATENCY AUDITORY EVOKED POTENTIAL IN ADULTS WITH COMPLAINTS OF CENTRAL HEARING PROCESSING
Justyna Kutymba	P-082	Mobile applications in teleaudiology - possibilities of application and their effectiveness.
Hannallice Gottschalck Cavalcanti	P-083	Neonatal hearing screening coverage and its relation to speech therapist and equipment offer in Brazil
Michael Hlousek	P-084	Noise Exposure Effects on Physiological and Perceptual Measures of the Auditory System
Ying CHEN	P-085	Otoplan: An effective measurement modality to determine cochlear duct length of normal cochlea
Pedro Menezes	P-086	Otoprotection by N-acetylcysteine during cisplatin chemotherapy: a systematic review with meta-analysis
Sung Wook JEONG	P-087	Paradox of aural preference syndrome
Hashir Aazh	P-088	Parental separation and parental mental health in childhood and tinnitus and hyperacusis handicap in adulthood
Sebastian Górski	P-089	Partial or total replacement prosthesis after modified radical mastoidectomy
Helena Stålnacke	P-090	Phonological development in children with otitis proneness. A longitudinal study for ages 3;6 to 5;6 years.
Chang-Hee Kim	P-091	Positional Audiometry in Patients with Light Cupula Phenomenon
Shin Hye Kim	P-092	Prevalence and clinical aspects of hearing loss among the South Korean adolescent: data from a population-based study
Jennifer Stevens	P-093	Prevalence of Exploding Head Syndrome (EHS) among patients seeking help for tinnitus and/or hyperacusis from an Audiology Department in the UK.
Weronika Świerniak	P-094	Prevalence of hearing loss among Polish school-age children from rural areas – results of hearing screening program in the sample of 67 416 children
Liepollo Ntlhakana	P-095	Proactive data management system to identify miners at risks for occupational noise induced hearing loss (ONIHL)
Magdalena Sereda	P-096	Protocol for a feasibility randomised controlled trial of hearing aids for tinnitus with hearing loss: the HUSH study
Małgorzata Ganc	P-097	Psychomotor development of children with bilateral profound sensorineural hearing loss using cochlear implant for at least 2 years
Il Gey Lim	P-098	Pulsatile tinnitus due to dural arterio-venous fistula
Liia Toropchina	P-099	REASONS AND TACTICS OF REHABILITATION OF CHILDREN WITH ASYMMETRIC SENSORINEURAL HEARING LOSS
Andrzej Kukwa	P-100	Reconstruction of the post-surgical cavity of the middle ear and the mastoid cavity following the radical and expanded attico-antromastoidectomy surgeries.
Amanda Scheffer	P-101	RECOVERY OF HEARING HAIR CELLS INTEGRITY THROUGH PHOTOBIMODULATION THERAPY
Beata Miaškiewicz	P-102	Recurrent respiratory papilloma of the larynx- a case study
Erik Witte	P-103	Reduced Differences in Phoneme Masking Susceptibility by the Introduction of a Phoneme-to-Noise Ratio (PNR) in Phonemic Discrimination Tests in Noise
Sergei Levin	P-104	Rehabilitation of patients with a cochlear implant using artificial intelligence algorithms
Sergei Levin	P-105	Rehabilitation of patients with auditory neuropathy and a cochlear implant
Amie Gronow	P-106	Relationship between atypical CTSIB results and anxiety in patients seeking help from a Balance clinic.
Małgorzata Fludra	P-107	Resiliency in people experiencing tinnitus

Katarzyna Nykiel	P-108	Results of hearing screening in nursery school children aged 5-6 years
Olena Naumenko	P-109	Revision ossicular chain reconstruction – hearing results
Amanda Scheffer	P-110	Screenplay for the preparation of didactic material in video lecture format.
Justyna Kutyba	P-111	Sense Examination Capsule - a device of the future
Małgorzata Karpowicz	P-112	Separate hearing and hearing skills based on studies in primary school students
Anna Ratuszniak	P-113	SHORT-TERM AUDIOLOGICAL ASSESSMENT OF THE EFFECTIVENESS OF BONEBRIDGE IMPLANTATION IN CHILDREN WITH CONDUCTIVE AND MIXED HEARING LOSS
Maria Francisca Colella-Santos	P-114	Study of Hearing in Newborns Vertically Exposed to Virus Zika without Microcephaly
Katarzyna Pietrasik	P-115	Superior Canal Dehiscence (SCD) –case report.
Aleksandra Panasiewicz	P-116	SURGICAL TREATMENT OF PATIENT WITH ONE-SIDED BAMBOO NODULE OF THE VOCAL FOLD – CASE STUDY
L. Paweł Chmielik	P-117	Suspicion of delayed speech development and auditory central conductivity of the brainstem in children with autism.
Cilmara Levy	P-118	Talking with children matters: Technologies, parents and therapists need to be in tune
Moo Kyun Park	P-119	Task repetition influence on pupil response in normal hearing adults
Magda Zelazowska-Sobczyk	P-120	Teaching English to the deaf and hard-of-hearing in Poland – a literature review
Maria Francisca Colella-Santos	P-121	Test Listening In Spacialized Noise Sentences - LISN in Brazilian Portuguese
Amanda Scheffer	P-122	The applicability of the Tinnitus and Hearing Survey (THS) in the differentiation of tinnitus and hearing complaints.
Ewelina Miśko	P-123	The Bonebridge implant in children: subjective assessment with APHAB questionnaire
Peipei Fei	P-124	The cognitive development of hearing impaired children with hearing aids and cochlear implant
Amanda Scheffer	P-125	The correlation of psychoacoustic measures and visual analogue scale in patients with tinnitus complaints
Jae-Hyun Seo	P-126	The Development and Validation of the Korean-version Digits-in-Noise(K-DIN) test
Hannah Keppler	P-127	The development of an auditory-cognitive test protocol in order to optimize the hearing aid benefit
Hannah Keppler	P-128	The effect of attending music festivals on the auditory system
Kelly Cristina Lira de Andrade	P-129	The effect of different stimulation rates on the auditory brainstem response
Ozgenur Cetinbag	P-130	The effect of noise exposure on vestibular function.
Qian Minfei	P-131	The effects of aging on peripheral and central auditory function in adults with normal hearing
Maria Francisca Colella-Santos	P-132	The effects of noise on long latency auditory evoked potentials with verbal and non-verbal stimuli at different signal to noise ratios.
Sung Huhn Kim	P-133	The effects of preoperative audio-visual speech perception on cochlear implantation outcomes in patients with postlingual deafness
Karolina Mocior	P-134	The evaluation of the auditory benefits and quality of life in patients of different age groups after cochlear implantation
Agneta Anderzén Carlsson	P-135	The experience of family life when one parent has deafblindness- the partner's perspective
Paulina Wieczorek	P-136	The impact of stimulus spectrum width at frequencies of 500 and

4000 Hz on ASSR responses in normal-hearing and hearing impaired ears

Beata Dziendziel	P-137	The influence of stapedotomy on the quality of life of otosclerosis patients
Sergei Levin	P-138	The method of rehabilitation treatment of patients after cochlear implantation using telemedicine technologies.
Weronika Świerniak	P-139	The pre- and postoperative assessment of frequency and severity tinnitus distress among adult patients qualified for cochlear implantation
E.E. Saveleva	P-140	THE PREVALENCE OF THE HEARING ORGAN PATHOLOGY AMONG PUPILS OF ELEMENTARY SCHOOL IN TWO REGIONS OF RUSSIA
Joanna Kobosko	P-141	The quality of life of families with a small deaf child using a cochlear implant
Hashir Aazh	P-142	The Relationship between Severity of Hearing Loss and Tinnitus Loudness
Joanna Wojcik	P-143	The role of neurotransmitters in patients with tinnitus
Małgorzata Buksińska	P-144	Tinnitus in the patient with neuroendocrine adenoma of middle ear (NAME) - case study
Beata Dziendziel	P-145	Tinnitus Severity Change After Stapes Surgery
Seisse Gabriela Sanches	P-146	Tinnitus Treatment: Audiological Characteristics before Hearing Aids use.
Roman Barylyak	P-147	Treatment of hearing loss in patients with Ehlers-Danlos syndrome – presentation of 2 cases
Alexandros Andrianakis	P-148	Triamcinolone acetonide as salvage treatment of idiopathic sudden sensorineural hearing loss: a retrospective study
Aleksandra Dąbkowska	P-149	Tympanoplasty after ear trauma: review of pathology, management and outcomes
Anna Pajor	P-150	Usefulness of mobile posturography in diagnostics and rehabilitation in vertigo and balance disorders - a literature review.
Dmitrii Kliachko	P-151	Using the automatic recording of auditory nerve responses in the rehabilitation of patients after cochlear implantation
Sheila Andreoli Balen	P-152	Validation of a Brazilian Portuguese Digits in Noise Test
Edyta Piłka	P-153	Variability of high-frequency distortion product otoacoustic emissions measured by the SmartOAE device: preliminary study
Jakub Łyczba	P-154	Vestibular schwannoma treatment and its relationship to tinnitus change
Berta Cunha	P-155	Visual dependence after vestibular rehabilitation by virtual reality in individuals with peripheral vestibular hypofunction – one year of results
